

Make Accurate, Faster Commercial Underwriting Decisions

WHO WE ARE

Groundspeed's human-in-the-loop AI captures and structures data from loss runs, exposure schedules, and other submission documents and enriches the data with the industry's largest contributed dataset, giving underwriters additional insight on even the most complex risks in just hours.

Over 98% accurate data — in hours, not weeks

LINES SUPPORTED

- Workers' comp
- Property
- Auto
- General liability
- Excess
- Umbrella

OUR PRODUCTS

Setup & Clearance

Groundspeed automatically extracts the key data fields you need to rapidly setup and clear new accounts, allowing underwriters to lower their time to quote and expense ratios.

Loss Run Automation

Groundspeed extracts, normalizes, and enriches detailed loss history data to provide a comprehensive understanding of prior losses for underwriters, analysts, and business leaders.

Exposure Schedule Analysis

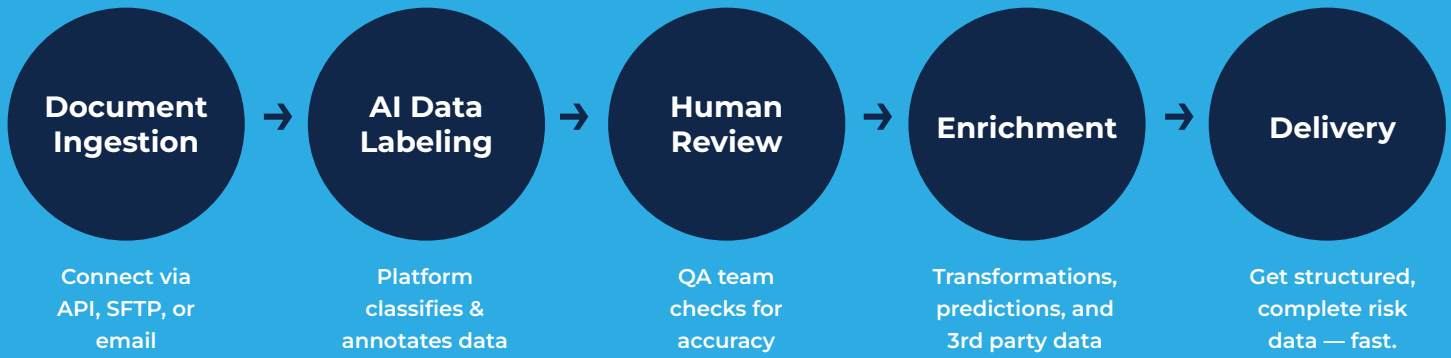

Groundspeed extracts data from exposure schedules and normalizes and enriches it with 3rd party data to enable fast, well-informed triage and rating decisions for underwriters.

TRUSTED BY LEADING P&C CARRIERS

HOW IT WORKS

WHAT OUR CUSTOMERS SAY

“Groundspeed’s AI capabilities optimize productivity for both our underwriters and our agent and broker partners.”

- Bill Devine
Senior Vice President, Business Insurance

“Groundspeed has been a tremendous asset because of its speed, and you can trust the data.”

- David Simmeth
Senior Vice President and CIO
